DETAILED ACTION

Allowable Subject Matter

1. Claims 11, 19, 20 and 38-42 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - a. With respect to claims 11 and 20, the claims have been found allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a MRI system comprising scanning means to perform a measuring scan to determine different sensitivity distributions of the reception MR coil at the different positions of the couch in combination with the remaining limitations of the claim.
 - b. With respect to claim 19, the claim has been found allowable over the prior art of record because the prior art of record fails to teach or fairly suggest an MR imaging method of obtaining an MR image of an object based on a sub-encoding technique (fast imaging technique) using a reception RF coil, the object being laid on a couch, the method comprising the step of unfolding the respective images acquire at each different position of the object using the data of the different coil sensitivity distribution in combination with the remaining limitations of the claim.
 - c. With respect to claims 38-42, the claims have been allowed due to their dependency on claims 11, 19 and 20 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
